DESIGNER TIPS

Dark colours are to be avoided in decorating a small room. You can design a more spacious and calmer life space using pastel tones that will give a nice warmth under the reflection of the day light.

You can install your lamps at different heights in your room to have a modern outlook and a relaxing environment.

Try to avoid colourful furniture if your walls are also rich in colour. In the end, confusion brings forth chaos. You can transform your plain furniture into more dynamic objects with the help of a colourful single-style touch and toss pillows.

TV UNITS

TV Delight

Although it is almost impossible to stay away from our smart phones in the new world order, watching TV is still a unique delight for everyone. It's indeed true that we all have a favorite TV show. For some watching a football game is indispensable, for others following TV competitions, or watching TV shows.

Adorn the wall behind your TV unit with stone paving panels, if you like natural textures. These panels suit very well especially with wooden TV units.

DINING
ROOMS

Chic tables

It is a delight for all of us to prepare delicious food for our guests, host them and see them happily leave our table. Yet, your guests will admire not only your food but also your table at the end of the day, if you can blend delicious food with a nice table presentation.

Decorating your table with candles and flowers, among other accessories, will enrich your presentation. You should also keep in mind your table cover and dinner service in your choice of candles and flowers. You should be very careful about the placement of your candles and flowers, though. Or else, you may as well cover the eyesight of your guests.

The color of your table cover must also match with the color of your dinner service. Otherwise, there might appear a messy look due to the abundance of colors. If you feel indecisive about the colors, feel free to use opposing colors to create more appealing tables. You might start with black and white.

Put your napkins only on the left side of the plates or over them. You might put live flowers or branches on your napkin rings to make them look even more beautiful.

BEDROOMS

A good night's sleep helps to you kick off the day in the most pleasant way. We become more energetic, joyful and a lot calmer. We need to remember that a good night's sleep is good for not only our psychology but also the human health in general. This requires giving a good thought about not only our bed but also each and every detail in the bedroom.

Putting double pillows in your bed makes it easier for you to find the most suitable position to sleep. You feel more relaxed if you read a book before going to sleep instead of looking at the screen of your phone or watching television. You might use your pillow to support your back while reading a book.
